Typhoon DOMENG (JANGMI)
Issued at 11:00 AM, 01 June 2026
Valid for broadcast until the next bulletin at 5:00 PM today.

TRACK AND INTENSITY OUTLOOK

- **It must be emphasized that heavy rainfall and severe winds may still be experienced in localities outside the forecast confidence cone. Refer to "Other Hazards affecting Land Areas" for more details. Furthermore, the track may still shift within the limit of the forecast confidence cone.**
- Typhoon DOMENG will begin moving north northeastward today towards southern Japan. This tropical cyclone will likely exit the Philippine Area of Responsibility (PAR) this noon.
- DOMENG began weakening while moving towards Okinawa, Japan.

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

The next tropical cyclone bulletin will be issued at 5:00 PM today.
